

Your Hydraulic Total Solution

Camel Precision Co., Ltd.
www.cml-motion.com

INDUSTRIAL APPLICATIONS

01 Machine Tool Industry

Core of CML's product development. We customize products for lathe machines, milling machines, planers, grinders, etc.

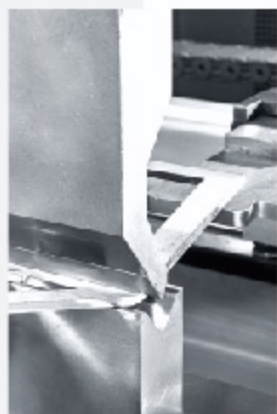

02 Mobile Machinery

CML supplies customized gear pumps, piston pumps, dump truck pumps, and valves for forklifts, tractors, lawn mowers in the agricultural machinery industry, and gravel trucks in construction vehicles.

03 Rubber And Plastic Machinery Industry

We introduced servo system in 2010 and have been working with the top 10 machine makers in China and Taiwan. With a high market share of about 35%.

04 Metal Processing Machinery Industry

Integrating the experience of the machine tool and the rubber and plastic machinery industry, providing a variety of systems and services that meet the application of special machinery.

05 Shoemaking Machinery Industry

With nearly 30 years of experience in the Shoemaking Machinery Industry. Services in the areas of cutting machines, clamping machines, injection machines, and sole presses.

06 Others

Including applications in the wind power industry, parking machinery industry, and test equipment industry.

ABOUT CML

Camel Precision Co., Ltd. (CML)

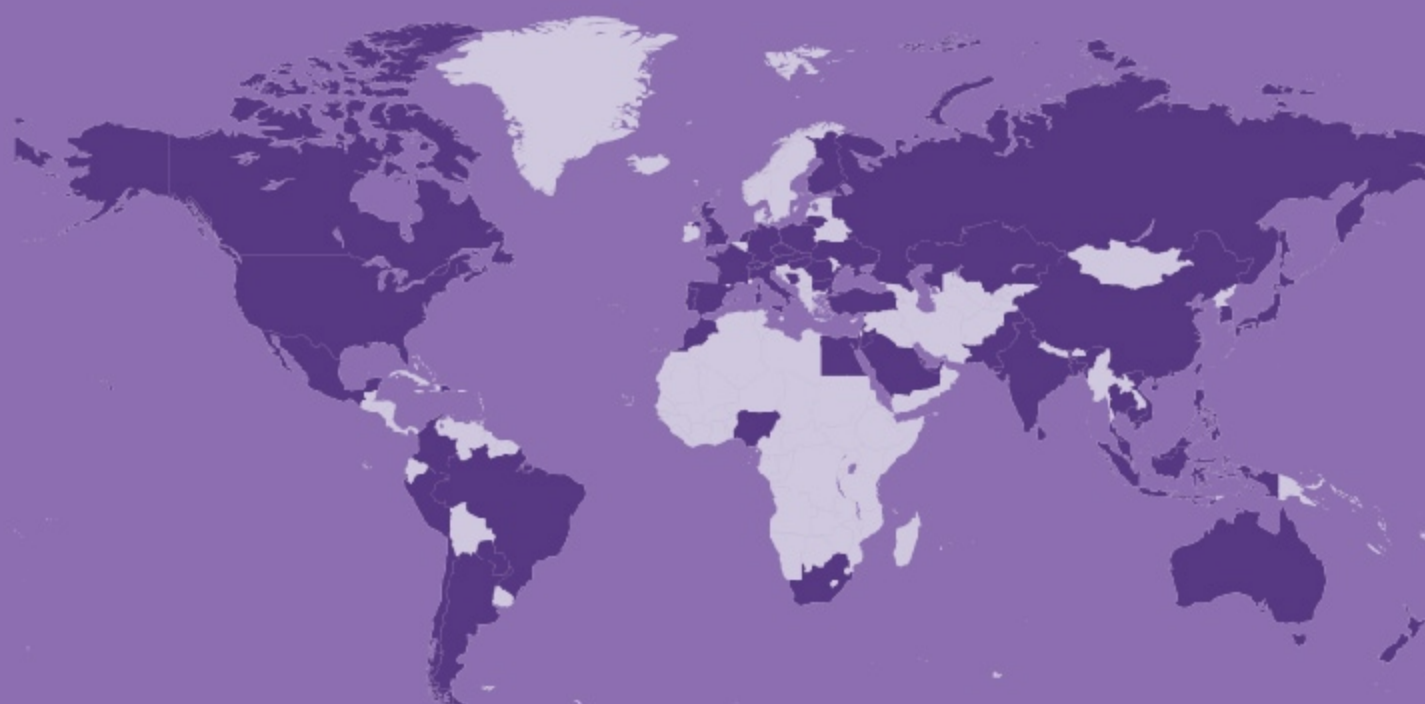

A professional manufacturer of hydraulic pumps and hydraulic valves, and has sold Eckerle internal gear pumps to Asia for nearly 20 years.

Since 1981, CML has been committed to the production of hydraulic products and assisted customers in creating customized hydraulic stations and systems. CML has diversified hydraulic products, which can quickly respond to customer needs, and the experienced team can not only provide customized products, but also an excellent help for customers in the field of hydraulics.

Sanwu Group - The parent company of CML

San Wu Rubber was established in 1946 and is a professional rubber belting manufacturer from Taiwan. San Wu specializes in producing variety of conveyor belts such as Textile Conveyor Belts, Incline Conveyor Belts, Baler Belts, Steel Cord Conveyor Belts, Bucket Elevator Belts and Corrugated Side-Wall Conveyor Belts and power transmission belts such as Banded Belts, Raw-Edge Belts, Variable Speed Belts, Scooter Belts, Agriculture Belts, Lawn Mower Belts, Automotive Belts, and Ribbed Belts.

Global Services

•3000+

Offering services for more than 3,000 companies.

•40 years of experience

Cross-field technical cooperation

•96%

High client satisfaction with repurchase rate reaching 96%.
